## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations. 16-44200-1

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 18 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations. 16-54000-1

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations. 10-54890-1

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

REPORT OF SHIP'S SURGEON

0.9 158300

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 18 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations. 16-54894-1

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations. 16-64404-1

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

## REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE

### INSTRUCTIONS

*To masters and medical officers of ships, and others concerned:*

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.
